A complimentary American Academy of HIV Medicine membership for all Pharmacy Students!

The American Academy of HIV Medicine is offering you a complimentary membership as one way of introducing you to the field of HIV medicine. We hope your connection with the Academy will better help you make decisions about your future in the practice of medicine.

The Academy is an independent, nonprofit medical organization of AAHIVM HIV Specialists™ and other health care providers dedicated to promoting excellence in HIV/AIDS care. Through advocacy and education, the Academy is committed to supporting health care providers in HIV medicine and to ensuring better care for those living with AIDS and HIV disease. As a medical student member of the Academy, you are eligible for all the benefits offered to every Academy member.

We are the largest independent organization of frontline HIV care providers, our members provide direct care to more than 340,000 HIV patients. This is more than two thirds of the patients in active treatment for HIV disease. While 80% of our members are physicians, we have a diverse membership representing professionals across the HIV care team including, nurse practitioners, physician assistants, nurses, nutritionists, pharmacists, psychologists, and social workers.

To apply and/or to review the benefits that come with AAHIVM membership, please visit our website at www.AAHIVM.org.
