Pharmacy Student Governance Association (PSGA) – Pharmacy Student Body

Student Professional Organizations

Class Representation (P1, P2, P3, P4)

Every Member of the Pharmacy Student Body (YOU)

Pharmacy Delegates
Pharmacy Student Governance Association (PSGA)  
Roles and Responsibilities

The PSGA is the governing body for students enrolled in the University of Charleston School of Pharmacy. The functioning bodies of the PSGA are the Executive Committee, the Executive Board, the Chairs, and the General Body. Every pharmacy student is a member of the Pharmacy Student Governance Association through membership in the General Body. The Executive Committee and Executive Board are comprised of the elected PSGA officers, and the PSGA officers and organizational representatives, respectively.

The PSGA is the representative body of the pharmacy students at the University of Charleston and represents the student body on issues that are of importance to the pharmacy students. The PSGA facilitates unity, progress, professional, and personal development among the pharmacy students at the School of Pharmacy at University of Charleston and seeks to assist in the development of the leadership skills, ability, and participation of pharmacy students in professionally relevant activities. PSGA is the primary programming, governing, and coordinating unit of student-developed and student-coordinated activities for the University of Charleston School of Pharmacy. Every School of Pharmacy recognized pharmacy organization, group or club has representation through the decision making body of the PSGA (the Executive Board). PSGA presents the concerns of the pharmacy student body to administrative entities within the School of Pharmacy. Communications that are global in nature and for the entire student body are disseminated through the PSGA.

The Assistant Dean for Student Affairs and the Director of Student Affairs serve as Co-Advisors of the PSGA. The Assistant Dean for Student Affairs coordinates the meetings of the PSGA Advisory Council, which is comprised of the faculty advisors of each student organization and/or those faculty members who have an interest in student governance, leadership, and programming. Periodically, meetings of the PSGA Executive Board and PSGA Advisory Council occur to discuss student, administrative, and/or programmatic issues, initiatives, and/or concerns. When and where appropriate, suggestions for new, amended, or modified policies and procedures that impact student welfare are received.
Pharmacy Student Governance Association
