

## **ORGANIZATIONAL LEADERSHIP**

*Dr. Dale Retzlaff, Program Director*

### **Organizational Leadership Program Mission Statement**

The Organizational Leadership program develops individuals for departmental and team leadership using a foundation of liberal education, applying personal and professional knowledge and skills in core leadership competencies to improve effectiveness and teamwork to get results, create change and make a difference for a life of productive work, enlightened living and community involvement and service.

### **Program Description**

The Organizational Leadership degree completion program develops individuals with the skills they need to join the next generation of global leaders by using a foundation of education and applying personal and professional knowledge and skills in core leadership competencies. The courses are designed to develop scholar-practitioners for application of knowledge through dynamic real-world, innovative learning applications and encourage collaboration, team building, critical thinking, and accountability while learning ethical and principle-centered leadership skills. Students may transfer credit from accredited community colleges and post-secondary schools as well as earn additional credit for military training, certifications and other training, which can be used toward your four-year degree.

This adult degree completion program is created for the working professional who needs to finish a bachelor's degree to progress in his or her career. It is designed to fit the needs, academic interests, and existing schedule of the adult learner. The Organizational Leadership program employs the cohort-learning model, not only accomplishes these goals; it provides its students with a network to learning and collaborating professionally long after the students have finished the last class.

The program is designed in a convenient format combining online meetings, facilitated weekly discussions, team projects, and individual assignments.

Students can also participate in a leadership concentration for First Responder/Criminal Justice Leadership. In this concentration, students will be provided vital contemporary leadership tools to formulate a “Best Practices” approach in facilitating both problem solving and positive change in the public safety sector and the communities they serve.

The Bachelor of Science in Organizational Leadership (ORGL) program takes advantage of our skilled students’ experience. Recognizing that our students are adult learners with very busy lives and richness of “real-world” experience, we create a learning environment that builds on such. Through dynamic "real world" innovative learning applications, our students learn to bring new ideas and energy as leaders to solve leadership and organizational challenges. Thus, this program continually and consistently reinforces the value of life-long learning by specifically accommodating the unique needs of the adult learner. The ORGL program has an experiential foundation based on the belief that our

students are mature learners who know how to learn, accept the responsibility for their learning experience, and demand challenge from their program. You will learn from dedicated and student-oriented faculty members, who share a wealth of professional experience, giving them a unique perspective on the nature and dynamics of organizations, and who are committed to your success.

### Organizational Leadership Program Learning Outcomes

ORGL graduates will be prepared to lead teams and departments in a wide array of business and organizations in the private and public sector.

The graduate will:

1. Evaluate his or her own performance for self-improvement.
2. Analyze the qualities of a successful team.
3. Analyze and apply leadership styles in various contexts.
4. Implement effective approaches to organizational change.
5. Apply leadership skills to communicate with a variety of audiences in various contexts.
