Pledge of Professionalism

As a student of pharmacy, I believe there is a need to build and reinforce a professional identity founded on integrity, ethical behavior, and honor. This development, a vital process in my education, will help ensure that I am true to the professional relationship I establish between myself and society as I become a member of the pharmacy community. Integrity will be an essential part of my everyday life and I will pursue all academic and professional endeavors with honesty and commitment to service.

To accomplish this goal of professional development, as a student of pharmacy I will:

DEVELOP a sense of loyalty and duty to the profession of pharmacy by contributing to the well-being of others and by enthusiastically accepting responsibility and accountability for membership in the profession.

FOSTER professional competency through lifelong learning. I will strive for high ideals, teamwork and unity within the profession in order to provide optimal patient care.

SUPPORT my colleagues by actively encouraging personal commitment to the Oath of a Pharmacist and the Code of Ethics for Pharmacists as set forth by the profession.

DEDICATE my life and practice to excellence. This will require an ongoing reassessment of personal and professional values.

MAINTAIN the highest ideals and professional attributes to ensure and facilitate the covenantal relationship required of the pharmaceutical care giver.

The profession of pharmacy is one that demands adherence to a set of rigid ethical standards. These high ideals are necessary to ensure the quality of care extended to the patients I serve. As a student of pharmacy, I believe this does not start with graduation; rather, it begins with my membership in the professional college community. Therefore, I must strive to uphold these standards as I advance toward full membership in the profession of pharmacy. As a class, we voluntarily make this pledge of professionalism.

Adapted from the University of Illinois College of Pharmacy's Pledge of Professionalism.

Jones, Valerie A. *The White Coat: Why Not Follow Suit?* 1993.

Developed and adopted by the American Pharmaceutical Association Academy of The Journal of the American Medical Association. Columbia University Students of Pharmacy and the American Association of Colleges of Pharmacy Council of College of Physicians and Surgeons. Web. 12 Aug. 2009. Deans Task Force on Professionalism on June 26, 1994

Significance of the White Coat

The coat is white as a representation of purity and goodness; it is a visual reminder of a pharmacy student's dedication and commitment to the community. The White Coat Ceremony was created by the Arnold P. Gold Foundation of New York and the first ceremony was held for the entering class of the College of Physicians & Surgeons of Columbia University on August 20, 1993. The foundation feared technology and science were rapidly advancing in such a way that medical practitioners would no longer have a focus on humanism in medicine. One main reason the Foundation created the White Coat Ceremony for first year students was their belief that it is the opportunity to influence the standards of professionalism. Since then, many other health professional programs have adopted the custom.

School of Pharmacy | White Coat Ceremony | Class of 2026

—Keynote Speaker—

Dr. Matthew Rafa, Class of 2010
West Virginia Pharmacists Association
President-Elect

Born and raised in Wheeling, Matt graduated from West Virginia University in 2004 with a degree in chemistry. During that time, a summer job working as a pharmacy technician changed his passion, and in 2006, Matt became an inaugural member of the University of Charleston School of Pharmacy. He graduated in

2010 and returned to Wheeling to start working as a pharmacist for Kroger around the northern panhandle – Ohio Valley area. In 2012, Matt was assigned to his hometown as the pharmacy manager at Kroger Pharmacy and has worked diligently to provide the Warwood community with outstanding healthcare since.

Upon returning to Wheeling, Matt became involved in his community. He is the president of the newly-formed Ohio County Virtual Lions Club, has been involved with the Boy Scouts Ohio River Valley Council as a board member and Vice President of Programs from 2017-2021, and has served as the Employed Pharmacy Director for the WV Pharmacists Association – representing chain pharmacists – for four years from 2016-2020, and recently joined the Warwood School Local School Improvement Council as a community representative. He has served in all these roles for a combined 22 years of service and leadership. Matt is an Eagle Scout.

In Matt's 11-year tenure as a pharmacist, he has been awarded Kroger's Shining Star Award twice in 2010 and 2011; WV Society of Health Systems Pharmacists Young Pharmacist of the Year in 2011; Ohio-Marshall County Pharmacist of the Year in 2014; Kroger's Leader in Clinical Care Award in 2016; an award for volunteerism at the 2019 State of the City address by Wheeling City Council; WVPA Distinguished Young Pharmacist in 2019; and WVPA Excellence in Innovation Award in 2021.

Matt has also been a champion for the COVID vaccine by providing ample access to it. He has provided COVID-19 vaccinations since Dec 30th, 2020, at his pharmacy, vaccinated Ohio County Schools employees and healthcare professionals, and continues to volunteer at the Greater Wheeling Soup Kitchen two to three times every week to offer vaccinations to an underserved population.

Matt currently serves the West Virginia Pharmacists Association as President-Elect and Membership Chair.
