

Mike Stockman

Founder & CEO, BizSolutions.Tech | AI & Innovation Advocate | Educator

Mike Stockman is the Founder and CEO of BizSolutions.Tech, where he leads strategic consulting and technology innovation initiatives across sectors ranging from enterprise IT to higher education. His career began in the United States Air Force, where he built a strong foundation in secure communications, operational leadership, and intelligent systems development. He later joined Intel Corporation, contributing to large-scale global infrastructure projects, IT modernization efforts, and research of multi-agent systems which influenced industry standards for intelligent agent frameworks.

With over three decades of experience, Mike has become a trusted leader in digital transformation, artificial intelligence integration, and enterprise systems architecture. As an adjunct professor at the University of Charleston, he brings real-world experience into the classroom, teaching Software Engineering, Web Development, and Data Analytics. He shares his passion for AI-enabled systems which are founded on security, reliability, and trust.

At BizSolutions.Tech, Mike has spearheaded multilingual data center deployments, developed AI-enhanced platforms, and advised clients on secure, scalable solutions tailored to evolving digital landscapes. He also hosts a world-class ServiceNow Developer Meetup which has been active with over 1000 members since 2017.

Outside of his work in tech and academia, Mike enjoys spending time with his wife, Diana, and their dogs on their property outside Charleston, West Virginia.
